

ALBERT LEE

DEMOCRAT FOR CONGRESS OR-03

VOTE BY MAY 19, 2020

CLIMATE EMERGENCY

We need to enact the Green New Deal to reshape our economy and our world. We also must hold politicians funded by fossil fuel companies accountable.

HOMELESSNESS & AFFORDABLE HOUSING

Housing is a human right. We must enact Housing First policies to end our homelessness crisis. In addition, Medicare For All and real living wages will help prevent people becoming homeless. We need to establish nationwide Universal Rent Control and defend fair housing and provide true mixed-income social housing.

MEDICARE FOR ALL

The U.S. needs a single-payer system. Health-care is a human right—not a privilege.

A REAL LIVING WAGE

We need a minimum wage to support working families that is tied to the cost of living and allows for the ability to live on one full-time job.

JOB GUARANTEE

Creating a job guarantee will eliminate inflation and unemployment and will ensure unemployment isn't used to suppress workers' wages and rights.

CRIMINAL JUSTICE REFORM

It's time to end the war on drugs; we must expunge low-level and nonviolent drug convictions. We must ban for-profit prisons and end fines as revenue. We need to demilitarize and diversify the police, and provide independent citizen police review with the power to override police union power.

LGBTQIA+ RIGHTS

It's time we pass the Equality Act to protect all LGBTQIA+ Americans in the workforce.

WOMEN'S RIGHTS

We need to protect abortion rights and strengthen our commitment to gender equality, guaranteed paid family leave, repeal SESTA/FOSTA, and decriminalize sex work.

ABOLISH ICE

We have a broken immigration system built on structural and systemic racism. We need to abolish ICE and dismantle immigrant detention centers.

BLACK LIVES MATTER

We need to develop restorative and racial justice policies to help right the wrongs of 400 years of oppression.

RESTORE VOTING RIGHTS

We need to make vote by mail the national standard, ban electronic voting systems, and return to paper ballots with records. We need to overturn felony disenfranchisement laws and allow for international observers at all elections.

CANCEL STUDENT DEBT

We need to cancel student debt and make public higher education free. This will be a great investment in our future.

GET MONEY OUT OF POLITICS

My campaign is not taking corporate money. This should be the standard for all candidates. Money in politics and gerrymandering reduce choice and accountability. We need to ban corporate lobbying and establish publicly financed campaigns.

STRENGTHEN AND PROTECT UNIONS

Unions fought for a 40-hour work week, vacation days, and sick pay. As unions are attacked, so too are workers' rights. We need to enact the PRO Act and strengthen unions to combat the greed of those at the top.
